

PARTNERSHIP FOR NEW YORK CITY

A Business Leadership Organization

MISSION

To engage the business community in efforts to advance the economy of New York City and maintain the city's position as the center of world commerce, finance and innovation. Through the New York City In-vestment Fund, the Partnership contributes directly to projects that create jobs, improve economically dis-tressed communities and stimulate new business creation.

FOCUS

A Network of Business Leaders

The Partnership is a nonprofit membership organization comprised of a select group of two hundred CEOs ("Partners") from New York City's top corporate, investment and entrepreneurial firms. Partners are committed to working closely with government, labor and the nonprofit sector to enhance the economy and maintain New York City's position as the global center of commerce, culture and innovation.

Enhancing the City's Economy

The Partnership focuses on research, policy formulation and issue advocacy at the city, state and federal levels. By leveraging its network of Partners, the Partnership has the unique ability to go beyond advocacy to action. Through its affiliate, the New York City Investment Fund, the Partnership directly invests in economic development projects in all five boroughs of the city.

Research and Policy

The Partnership serves as a resource of expertise and creative thinking for public policy makers, the media and others who are trying to understand and stimulate the growth of the New York City economy. The Partnership formulates policy by sponsoring economic impact studies, conducting business surveys, and convening task force panels and conferences for Partners, economic experts, public officials and other constituencies concerned with economic development.

Issue Advocacy

At City Hall and in Albany and Washington, the Partnership provides the business community a voice on important economic issues.

The Partnership agenda for 2011 will focus on four key areas:

1. Restore responsible **fiscal management** to New York State through spending reductions, more competitive tax policies, and revision of laws and regulations to achieve efficient and cost effective government operations and reduce mandates on local government.
2. Promote **economic growth and job creation** through tax and regulatory policies that encourage job-creators to innovate, expand and invest in New York.
3. Reinforce New York's status as a center of global talent and **intellectual capital** by supporting continued reform of public education, expanding industry-university collaboration and providing leadership in support of national immigration reform.
4. Invest in New York's **infrastructure** through creative public-private partnerships and collaborative efforts to bring more federal grants to the city and state.

Economic Development

The New York City Investment Fund is the Partnership's economic development arm. To date, the Fund has raised in excess of \$110 million and made more than 90 investments in businesses and nonprofit projects that promote the local economy. Currently, the Investment Fund is working on establishing a commercial biotechnology cluster in the city.
